

## THE DIAEAGLE ADVANTAGE

Driven by integrity and concern for quality over cost or quantity - our concern is the ultimate end-user - the patient - and not only how our products perform, but to what extent they enhance the lives of the patients.

### Optimum Clearance

## THE DIAEAGLE VISION

To ensure that highest quality renal products and care are available worldwide for those that are in need of it.

**Innovative Design**

**Quality Materials for Quality Products**

## OUR PRODUCT

Our initial line of products is inclusive of 4 sizes of dialyzers (1.3, 1.5, 1.7 & 1.9), all in ranges of both Low flux and High flux.

Future developments of our production line may diversify into other ranges, as well as various specialized varieties, as per the requests of clients.

### INNOVATIVE DESIGN

Encompassing cutting edge technology of the industry - DiaEagle's dialyzers are promising of higher clearance levels and ultimate health benefits.

### TARGET MARKET & STRATEGY

With the international market as well as domestic in mind, we address both private and government sectors alike.

### QUALITY

Only the highest quality medical grade raw materials and the PUREMA® membrane combine with our intense quality supervision resulting in bio-compatible products.

# DiaEagle

## OUR TEAM

With a comprehensive team of 100% Saudi administration and support forces of international professionals highly trained and experienced in every aspect of dialyzer production, DiaEagle engages to produce nothing less than the highest quality of products for distribution worldwide.

*Working hard today  
for a better tomorrow*

## OUR MISSION STATEMENT

While our immediate goal is to provide high quality dialysis products, our ultimate goal is to develop and improve on the products to afford for the patient higher clearance of toxins involving less time and discomfort throughout the process of the dialysis procedure. It is our mission to ensure that these high quality products are available to the international market as well as domestic.
